

Consumers Energy Count on Us

Consumers Energy Home Energy Analysis Program

With a **Consumers Energy Home Energy Analysis**, you'll learn how your home uses energy and which improvements will generate real energy and money savings.

The analysis costs just \$25* and includes:

- A thorough, onsite assessment of your home
- Free installation of energy efficiency products worth up to \$50
- Customized suggestions for energy improvements

Schedule your Home Energy Analysis today!

For more information or to schedule an appointment, visit **www.ConsumersHomeAnalysis.com** or call **(888) 316-8014**. Enter or mention Promo Code **TBLS**.

Consumers Energy Saving Solutions
Everyone has the power to save.

*Program funds are limited and are available in select geographic areas on a first-come, first-served basis. \$25 fee may be waived under certain circumstances.

www.consumersenergy.com/eeprograms

It's just 3 easy steps!

Onsite Assessment

A Home Energy Analyst will thoroughly assess your home's essential systems, including:

- Building envelope
- Windows
- Heating, cooling and water heating systems
- Lighting, appliances and electronics
- Insulation and ventilation systems

Installation of Energy-Saving Products

You'll get up to \$50 worth of simple, energy-saving upgrades during the visit, including:

- Compact fluorescent light bulbs (CFLs)
- Kitchen and bathroom faucet aerators
- Energy-efficient showerheads
- Water heater pipe wrap
- Smart power strip for electronics

Customized Solutions

After the analysis, you'll get a report explaining your home's current energy use and providing recommendations for energy upgrades. Plus, you'll learn about rebates that can help with the cost of the upgrades.
